

Vice President, Quality

Alaska Regional Hospital

Job Location: Anchorage, AK

Full Time/Days

JOB SUMMARY:

The Vice President, Quality promotes high quality, patient-centered care by overseeing aspects of the Quality Management/Patient Safety Program(s) and Performance Improvement programs across complex organizations (multi-service lines). The Vice President ensures the facilitation and utilization of diverse strategies and communication for quality and performance improvement, providing an integrated framework for monitoring, evaluating, and improving quality of care. The Vice President promotes performance improvement to drive care excellence and oversees the hospital regulatory and accreditation program.

MINIMUM REQUIREMENTS:

- 3+ years of data analysis in a healthcare setting required.
- 4+ years of experience in healthcare quality/risk management with demonstrated leadership required.

EDUCATION/LICENSES/CERTIFICATIONS:

- Currently licensed as a registered nurse or health professional in the state(s) of practice and/or has an active compact license, in accordance with law and regulation.
- Bachelor's degree in nursing or health-related field required.
- Master's degree in nursing or health-related field preferred.
- (CPHQ) Certified Professional Healthcare Quality or (CHCQM) Certification in Healthcare Quality Management must be obtained within 1 year of employment start date.
- Healthcare Accreditation Certification Program (HACP)

ADDITIONAL INFORMATION:

- This position is incentive eligible.
